

NB BRIMSTONE

£36,950.00

ADDITIONAL INFORMATION

Berth	3
Length	40ft - 50ft
Style	Traditional

HULL:

Built by David Piper in 1989. This boat comes with a hull survey from 2020. New anodes were fitted in 2022 and she was blacked in 2023.

She is fitted out in highly varnished tongue and groove which gives it a deep rich colour. Although originally fitted out in 1989 she has been updated by her current owner to make a comfortable liveaboard.

BERTHS: 2/3 Berth

SALOON:

Stepping through partially glazed front doors, we enter into a light and airy open plan saloon area with an attractively upholstered curved seating area with storage under. There is a tall cupboard and a Villager Puffin stove with back boiler set on a black hearth. Beyond is a second corner cupboard and a set of book shelves, while opposite that is a wall hung table and two chairs. Light is provided by large windows and 12v wall lights. There are a number of 12v and

E&OE

240V sockets. The floor is covered in a mid oak effect laminate floor which goes throughout the boat.

GALLEY:

Set apart from the saloon by beautifully turned wooden posts, this galley kitchen has been modernised with solid wood work tops, below which are white painted cupboards, a fridge and washing machine. There is a Thetford oven with separate hob. At the end of the galley are two sets of side hatches and steps leading out of the boat, along with a useful full height wardrobe with light.

BATHROOM:

This cross bathroom has a Thetford cassette toilet, a shower with thermostatic mixer valve and a small vanity sink unit which has been set under the window. The walls are covered in an attractive white marble Aqua Board, and an airing cupboard houses the calorifier with immersion heater and additional storage.

BEDROOM/BOATMAN'S CABIN:

A nice example of a boatman's cabin with attractive scumbling, decorated with roses and castles. It houses a solid fuel stove and authentic oil lamp. The double bed pulls down from within the unit.

ENGINE ROOM & ELECTRICS :

Under the back step is housed a Vetus M414 32hp diesel engine. There is a 3Kw Victron inverter, shore line and 2 x 175w solar panels with management system.

Heating onboard is provided by an Eberspächer diesel heater (which can be managed remotely) serving the radiators and or the solid fuel stove. In addition, there is a solid fuel range in the boatman's cabin.

OTHER EQUIPMENT :

Life Ring, hose pipe, 2 x 13Kg gas bottles, fire extinguishers, fire blanket, mooring equipment, horse brasses and plates.
