

**NB STAR**

**£22,000.00**

**ADDITIONAL INFORMATION**

<b>Berth</b>	2
<b>Length</b>	30ft - 40ft
<b>Style</b>	Cruiser

**OVERVIEW:**

NB Star was built in 2015, fitted out by the owner over the following year and has just had a full Post Construction Assessment. She is fitted out in pine T&G, has a 100 litre water tank, 100 litre diesel tank and a 15 litre capacity calorifier with immersion heater which is not connected at present, leaving the engine as the sole source of hot water. Head height on the boat is 6ft 6".

**CABIN (6ft 6"):**

The cruiser stern leads down into the rear cabin via a set of wooden steps with storage beneath. The fixed double bed has a set of shelves overhead and a large storage area underneath.

**GALLEY (5ft 3"):**

The galley is located amidships on the starboard side, opposite the bathroom. The laminate worktop houses a stainless steel sink and draining board, beneath which is a storage cupboard and a Waeco 12v fridge. There is a Voyager 4500 gas oven and 2 hob burner with a pot drawer below.

**TOILET (4 ft 0"):**

Located on the port side of the boat and entered through a concertina door, the bathroom has a handbasin atop a vanity with cupboards and a Porta Potti cassette toilet.

**SALOON (5ft 9"):**

This area has 2 free-standing chairs with a small side table between them. There is a tiled hearth and roof collar in place but no heater installed, leaving this option open to the new buyer as to whether they want to install a solid fuel stove or a diesel Refleks heater. The saloon opens out through a single off-set door onto the well deck (2ft 7") and the bow gas locker.

**ENGINE & ELECTRICS:**

The power unit is a Barrus 15hp diesel engine coupled to a PRM 80 gearbox. There is 1 starter and 2 leisure batteries, a single alternator but no inverter or shoreline connection. The gas locker contains 2 x 6kg gas cylinders.

**OTHER EQUIPMENT:**

Hose Pipe, Throw Rope.
